

Glass Artworks to Enjoy and Heirloom Jewelry for Your Wedding by Patsy Evins

Patsy Evins' love of creating color rich artwork has been a long journey in her life. She received a BFA in drawing and painting and continued her studies for four more years in private art institutions. Evins's professional painting career spanned 15 years in art galleries across the East Coast. Her paintings have been exhibited and sold in Japan, Europe, the Far East, Puerto Rico, and the United States.

In 1998, Evins' artistic career took a new direction when she attended a glass lampwork class. Being able to manipulate molten glass into 3-D shapes expanded the possibilities of her artwork and a wonderful means to express her visions. Pulling inspiration from her extensive flower gardens, her passion for snorkeling and tropical travels, Evins expresses these passions of flowers and the underwater magic of the ocean in her exquisite glass miniature artworks. Her glass art beads have received extensive recognition and have been showcased in numerous books and magazines. She is collected all over the world by glass connoisseurs who display or use her glass art beads in designs of wearable art jewelry.

Patsy enjoys collaborating with brides to create beautiful, one of a kind jewelry for the bridal party. These stunning, custom designed glass jewelry creations perfectly reflect the flowers in the bride's bouquet, colors and theme of the wedding. It is an impressive way for a bride to create a distinctly personal statement with her wedding. The additional benefit of these breathtaking glass floral artworks is that they become treasured keepsakes to be pass down for generations.

If you would love to have Patsy create something very special for your wedding, please call (361-798-5340) or e-mail Patsy at: Patsy@PatsyEvinsStudio.com
